

## *Directions and Information for Application*

### **Texas Christian University MS in Nutrition with DPD Verification (MS DPD)**

Department of Nutritional Sciences  
P.O. Box 298600  
Fort Worth, TX 76129  
(817) 257-7309 (phone or fax)

The mission of the Department of Nutritional Sciences (NTDT) at Texas Christian University is to provide a distinctive program of study in all areas of nutrition and dietetics within a traditional liberal arts setting. The faculty of the department affirm their commitment to the education of broadly informed, scientifically competent, self-educating, and ethically responsible professionals who are capable of entering successful careers in nutrition and dietetics, and are cognizant of the needs of the community and society at large.

The Texas Christian University MS in Nutrition with DPD Verification (MS DPD) is currently granted accreditation by the Accreditation Council for Education in Nutrition and Dietetics (ACEND). ACEND is the accrediting agency for education programs preparing students for careers as registered dietitian nutritionists (RD/RDN) or nutrition and dietetics technicians, registered. ACEND serves and protects students and the public by assuring the quality and continued improvement of nutrition and dietetics education programs. ACEND is recognized by the US Department of Education as a Title IV gatekeeper. This recognition affirms that ACEND meets national standards and is a reliable authority on the quality of nutrition and dietetics education programs.

The mission of the Didactic Program in Dietetics (DPD) at Texas Christian University is to support the missions of the University, college and department by fostering a rigorous academic curriculum that prepares students to be scientifically competent, accountable and ethically responsible citizens who are prepared for supervised practice, and thereby advancing as self-educating dietetics professionals who will become Registered Dietitian Nutritionists in the global community.

A Didactic Program in Dietetics (DPD) is designed for those who wish to enter the dietetics profession. It is an academic program in a U.S. regionally accredited college or university that culminates in a minimum of a baccalaureate degree. The TCU MS DPD is a three-year program that meets the eligibility requirements and accreditation standards for entry-level dietetics education programs specified by the Accreditation Council for Education in Nutrition and Dietetics (ACEND). Coursework is based upon achievement of Core Knowledge Requirements for the RDN for Didactic Programs in Dietetics and emphasizes the scientific and evidence base of dietetics practice, professional practice expectations, clinical and customer services, practice management and the use of resources. MS DPD curriculum provides students with a course of study in advanced nutrition topics related to disease prevention and management, health optimization, and food and nutrition sustainability. Students are able to tailor the degree with additional course options within, and outside of, the Department of Nutritional Sciences. More detailed program information and graduation requirements are available on the [MS DPD website](#) and the [TCU Graduate Catalog](#).

#### **Eligibility and Program Prerequisites:**

Eligibility for admission to the MS DPD track is based on completion of prerequisite courses with a cumulative GPA of at least 3.0 for Nutrition classes, an Associated Requirements GPA of at least 2.75, no more than 3 grades below a "B-" in the Associated Requirements, 200 hours of documented food or nutrition practical experience, and an application packet. GRE is not required. Applicants for whom English is a second language must pass the TOEFL at the level set by the University. Applications for the MS DPD must be submitted by April 30 to the Department of Nutritional Sciences and [TCU Graduate Admissions](#) for entry the following fall semester. Materials and directions for application to the MS DPD are available online from the [MS DPD website](#).

The MS DPD requires the following prerequisites:

- a. General Chemistry I
- b. General Chemistry II with lab
- c. Organic Chemistry
- d. Physiology with lab
- e. Nutrition

- f. Nutrition Throughout the Lifecycle
- g. Medical Terminology
- h. Microbiology
- i. Human Behavior, Psychology, Sociology or Anthropology

Students accepted to the MS DPD receive conditional acceptance pending completion of post-baccalaureate coursework at TCU. Details of specific program completion requirements, including post-baccalaureate required courses, will be specified in the letter of conditional appointment. Admission is made without regard to age, race, color, religion, sex, sexual orientation, gender, gender identity, gender expression, national origin, ethnic origin, disability, predisposing genetic information, covered veteran status, and any other basis protected by law. Program policies and procedures shall protect student civil rights, privacy of information, and comply with institutional equal opportunity programs. After successful completion of required post-baccalaureate courses, the student's status will change from "conditional" to "admitted" graduate student status.

**Program Costs:** Information regarding costs for tuition and University fees are available through the [Offices of Admission and Financial Aid](#). More detailed costs for students are outlined in the DPD Student Handbook and include approximately \$1000 per year for lab fees, photocopying, school and office supplies, textbooks, and professional dues.

Prior to beginning program courses, a medical release form must be on file for all MS DPD students. In addition, all students accepted into the MS DPD are required to have current CPR certification, a current Food Handler's card, drug screening, criminal background check, a recent negative TB test, and proof of program-required immunizations.

**Selection Criteria:** Applications will be reviewed by a selection committee. Qualified applicants will be contacted for an interview. Students will be selected on the basis of:

- a. Cumulative Nutrition GPA (3.0 minimum)
- b. Associated Requirements GPA (2.75 minimum)
- c. No more than three grades below a "B- "in Associated Requirements courses"
- d. Evaluation of documented food and nutrition work and/or volunteer experiences (200 hours minimum)
- e. Program prerequisites completed
- f. Completed MS DPD application form
- g. Completed [TCU Graduate Admissions](#) application form
- h. Evaluation of personal letter
- i. Evaluation of typed statement of goals
- j. Evaluation of resume
- k. Evaluation of three Letters of Recommendation on the "Recommendation Form"
- l. Results of the student interview with the selection committee

Final approval for admission to the program will be contingent upon the recommendation of the Nutritional Sciences faculty. All application materials become the property of the Texas Christian University Nutritional Sciences Department. All applicants will be notified of their admission status within six weeks of completed application submission.

**Required Application Components:**

- 1. Cover Page
- 2. Personal letter of application (*Include how academic and personal background influenced the decision to apply for the MS DPD.*)
- 3. Statement of personal and professional goals
- 4. Resume
- 5. Completed MS DPD application form \*Note: [TCU Graduate Admission](#) application must also be submitted.
- 6. One copy of transcripts from all colleges and universities attended.
  - a. Current TCU students may submit an unofficial TCU transcript with their application; all transcripts from other colleges and universities must be official and sent directly to the Nutritional Sciences office.
  - b. International students must have their degree transcripts evaluated by one of the Commission on Dietetic Registration's (CDR) approved [foreign degree evaluation agencies](#).
- 7. Three written recommendations from faculty and/or employment supervisors. The recommendation form is available

on the [MS DPD website](#). \*TCU Nutritional Sciences faculty should not be used for reference.

8. Correctly completed GPA calculation sheet. The GPA calculation sheet template is available on the [MS DPD website](#).
9. Documented food and nutrition work and volunteer experience log. The experience log template is available on the [MS DPD website](#).

**Application materials and letters of recommendation** should be submitted the TCU Department of Nutritional Sciences via email at [nutrition@tcu.edu](mailto:nutrition@tcu.edu) by April 30. All application materials should be submitted in one email, with the exception official transcripts and letters of recommendation, which may be emailed separately, and the [TCU Graduate Admissions](#) application, which is submitted online. Incomplete or late application packets will **NOT** be considered.

*Texas Christian University (TCU) is committed to providing a positive learning, living and working environment free from discrimination and harassment. In support of this commitment, TCU prohibits a range of behaviors, including unlawful discrimination and harassment based on age, race, color, religion, sex, sexual orientation, gender, gender identity, gender expression, national origin, ethnic origin, disability, predisposing genetic information, covered veteran status, and any other basis protected by law, except as permitted by law.*

**III. Academic Plan**

List (a) current courses and (b) courses to be completed before entering the Texas Christian University MS DPD (Not on official transcript.)

<b>Current Courses:</b>				
<b>Course #</b>	<b>Course Title</b>	<b>Cr. Hrs.</b>	<b>College/University</b>	
<b>Additional Courses to be Completed Prior to Entering the MS DPD:</b>				
<b>Course #</b>	<b>Course Title</b>	<b>Cr. Hrs.</b>	<b>College/University</b>	<b>Semester Planned to Complete</b>
